

SERVICES FOR USERS OF **BULK OXYGEN AND OTHER CRYOGENIC FLUIDS**

EQUIPMENT WE OFFER THIS SECTOR

1. Vertical and Horizontal Bulk Oxygen and Cryogenic Vessels
2. On Site Liquid Nitrogen Generation Systems
3. Vacuum Insulated Pipe, Valves and Equipment to Convey Liquid Oxygen and Other Cryogenic Fluids to Point of Use
 - a. Hard and Flexible Vacuum Insulated Pipe Systems
 - b. SSV (Safety Shutdown Valve) for Emergency Stop of Cryogenic Fluids
 - c. Y Pattern, T Pattern and Miniature Vacuum Insulated Cryogenic Valves
 - d. LN2 Injectors for Packaging Systems
 - e. Phase Separators
 - f. Vapor Heaters
 - g. Cryovents/Keep Full Vapor Release Devices
 - h. Automated and Manual Control Dewar Filling Systems
4. Food Freezing Tunnels and Cryogenic Batch Freezers
5. CryoBiological Storage Freezers
6. Gas Detection and Oxygen Monitoring Systems
7. Integrated Control Systems for Bulk Oxygen Supply

APPLICATIONS SERVICED: SOME OF THE MORE COMMON ONES

1. Hospital and Healthcare Bulk Oxygen Supply
2. MBE Molecular Beam Epitaxy
3. STM Scanning Tunneling Microscopy
4. SEM Scanning Electron Microscopy
5. TVAC Thermal Vacuum Chamber Testing
6. Food Freezing
7. Cryopreservation
8. Food and Beverage Packaging
9. Research
10. Shrink Fitting
11. Process Cooling/Cold Trapping
12. Cryotherapy

SERVICES PROVIDED TO USERS OF BULK OXYGEN AND CRYOGENICS

1. Facility Master Planning for Bulk Oxygen, Gas and Cryogenic Systems
2. Bulk Oxygen System Design and Permitting
3. Installation and Commissioning
4. Repair and Maintenance
5. Inspections/System Evaluations and Audits
6. Purchasing Assistance
7. Safety Evaluations
8. Training
