

TECHNICAL SERVICES FOR MEDICAL BULK OXYGEN SYSTEMS

INTRODUCTION:

Our certified technicians, endorsed under NFPA 55, NFPA 99, 21 CFR 211.25 and ASME, bring unparalleled expertise to medical bulk oxygen systems, ensuring safety and compliance.

HIGHLIGHTED SYSTEMS:

- **Bulk Oxygen Delivery Tankers:** Ensuring the reliable and secure transport of liquid oxygen to your bulk tank.
- **Hospital Central Supply Systems:** Keeping bulk oxygen flowing from the tank to every patient care area.
- **Medical and Dental Offices:** Bulk and microbulk oxygen solutions tailored to healthcare practices.
- **Hyperbaric Oxygen Therapy Systems:** Specialized maintenance for bulk-supplied hyperbaric systems.
- **Bulk Oxygen Systems:** Delivering efficiency and precision in large-scale liquid oxygen supply.
- **Analytical and Purity Testing Equipment:** Guaranteeing your bulk oxygen meets the highest purity standards.

SERVICE PLANS:

- Choose from our *Vital* and *Elite* bulk oxygen service plans for exceptional benefits:
- Regular, planned service intervals ensure bulk system uptime.
- Priority Scheduling:* Jump to the front of the queue for expedited service.
- Discounts for All Services and Parts:* Enjoy cost savings on bulk system maintenance and replacements.
- Pre-scheduled Annual Inspections:* Hassle-free scheduling for routine bulk tank check-ups.
- Ground Freight Costs for Air-Freighted Parts:* Cost-effective logistics for urgent replacements.
- Free Freight Costs for Ground Shipments:* Seamless and economical delivery for routine needs.
- 24-Hour Emergency Service (Exclusive to Service Plan Members):* Round-the-clock support when your oxygen supply is critical.
- Expedited/Emergency Repair Services (Heavily Discounted for Service Plan Members):* Swift and cost-effective solutions when time is of the essence.

SERVICE OFFERINGS:

- **Annual Inspections:** Thorough bulk system assessments to maintain compliance and safety.
- **PM and Service Plans:** Customized plans to ensure the longevity and efficiency of your bulk oxygen system.
- **Bulk Oxygen Equipment Installations:** Expert installation for new bulk systems and expansions.
- **Bulk Oxygen System Repairs:** Swift and precise repairs to minimize downtime.
- **Cylinder fill plant and reserve manifold maintenance** (pumps, vacuum, manifold)
- **Valves, Hoses, Fittings, Instrumentation sales:** Maintenance and replacement parts for bulk tank piping and controls.
- **Oxygen Cleaning Services:** Ensuring purity and cleanliness in bulk oxygen components.
- **Oxygen Supply Alarms:** Alarm systems that flag low bulk tank levels and pressure issues early.
- **Oxygen Analyzer Sales and Repairs:** Providing and maintaining accurate oxygen purity measurement tools.
- **Medical Oxygen Equipment Sales:** Access to high-quality equipment for bulk and medical oxygen applications.
- **Gas Detection Equipment:** State-of-the-art detection systems for safer bulk oxygen installations.

DETAILED SERVICES:

- **Bulk Oxygen Tanks, Vaporizers, Transport Vehicles and Dewars:** Our experts ensure the integrity and functionality of every component, minimizing risks and optimizing performance.

KEY BENEFITS:

- **Service Plans:** Sign up for a bulk oxygen service plan and unlock a world of benefits, from priority scheduling to substantial discounts.
